

GARRANDALE LTD
Innovation Engineered

The Anti-Graffiti Association

A photograph of a man in a dark suit and red tie, smiling warmly at a meeting table. In the background, another man is partially visible. The scene is set in a professional office environment. The text and logo are overlaid on the left side of the image.

Garrandale
Project Partnership

**Why would you,
Why should
you?**

What do you look for in a partner?
Could Garrandale have it?

Garrandale Project Partner

Garrandale in a nutshell

- Multi disciplinary range of engineering skills
- More approvals than you can shake a stick at
- Great workforce – Rail Industry specialists
- Great leadership – Mission to be the BEST
- Consistently high quality at competitive prices
- Long track record of Trust and reliability
- Customer is King culture & a 'Can Do' attitude

Need more?

The last two years has seen many changes to the Rail services landscape. Some companies have ceased trading leaving behind unfulfilled service contracts on equipment. Foreign companies have withdrawn to easier markets and we see wash equipment manufacturers specialising in car and bus machines telling us that washing trains is no different! Disturbing.

In this melee` the Garrandale Company had the courage and commitment to wade in and pick up the pieces. Restoring service contracts on other manufacturers equipment, reshaping inherited work procedures to give customers better value for money, and securing the cream of the industry experts to the Garrandale team. With an unrivalled level of knowledge and competency, it is no surprise that in the space of 18 months Garrandale has become the largest single provider of trackside and depot installation and maintenance services in the UK.

The recent installation of a Wash plant at Orient Way Olympic Park for Birse Rail went without a hitch as expected and is poised to receive the largest amount of traffic in a short time span never before seen in this country.

Garrandale have a 30 year pedigree in the rail industry and of late, there reputation swells by result of their 'Can Do' attitude that leaves customer project managers able to relax more in total trust that Garrandale do what they say. So when looking for a partner in your rail project, you should consider Garrandale. You'd be nuts not to!

A presentation slide with a dark blue background and a white-to-blue gradient. On the left, there is a large, stylized image of interlocking gears. The text is centered and reads:

Garrandale Project Partner

Manufacturing Capability

- 7,500 M² Modern manufacturing space
- Fabrication, machining, welding & coatings
- Design → manufacture → install → maintain
One stop shop principle
- All work conducted by in-house staff
- 90 manufacturing staff supporting a comprehensive install and service team

The logo consists of the letters 'GL' in a white, bold, sans-serif font, enclosed within a dark blue oval shape.

At our modern plant we have over 7,000 m² of manufacturing space comprising specialist welding, fabrication, heat treatment, machining and assembly facilities plus our own laser cutting facility which gives us greater repeatability in:

Mild steel fabrication

Stainless steel fabrication

Aluminium fabrication

Incoloy fabrication

Super-duplex Stainless steel fabrication

Titanium fabrication

So, from simple brackets, fittings and widgets to high specification, safety critical components for the transportation, petrochemical, oil and gas industries, we know that we are an engineering company like no other.

We don't contract work out because we have a good team of industry specialist in all disciplines. The best teams win prizes and our target prize is to be the preferred partner for Rail industry engineering projects for the foreseeable future..
